*Conversion for loose yard waste was 300#/cu.yd. Chipped wood was 500#/cu.yd. Compost was 1450#/cu.yd. Tires = 15# per tire. Car batteries = 40# per battery. Waste oil = 260 gallons per ton.										
NOTE: Recycling and solid waste weights for small municipalities are figured as a percent of the total route since more than one municipality is collected on the same route.										
(1) Percent Recycled= Total recycled / total recycled + solid waste Source of data: CRINC, haulers, municipal recycling contacts										
Department of Parks and Land Use										
Recycling and Solid Waste
